## **CSA1022 - Software Engineering for Agile**

### **EXPERIMENT 3:**

Creating a Scrum Project in Jira.

#### **Sprint Board at Start**

The screenshot shows the Jira interface for the 'E-Commerce Mobile App' project. The left sidebar shows recent spaces and the current project. The main area is titled 'Backlog' and contains five work items:

Item	Description	Status	Due Date	Assignee
SCRUM-1	user registration page	TO DO	Feb 2	
SCRUM-2	Develop API for login	IN PROGRESS	Feb 7	
SCRUM-3	Design product listing page	IN PROGRESS		
SCRUM-5	Implement add-to-cart functionality	TO DO		
SCRUM-8	order confirmation screen	TO DO		

#### **Sprint Board – End of Sprint**

The screenshot shows the Jira interface for the 'E-Commerce Mobile App' project, specifically the 'Board' view. The board is divided into three columns: 'TO DO', 'IN PROGRESS', and 'DONE'. The 'DONE' column contains one item: 'user registration page' (SCRUM-1), which is marked as completed. The 'IN PROGRESS' column contains two items: 'Develop API for login' (SCRUM-2) and 'Design product listing page' (SCRUM-3). The 'TO DO' column contains two items: 'Implement add-to-cart functionality' (SCRUM-5) and 'order confirmation screen' (SCRUM-8).
